Skincare Tips

Things To Know As A New Dermatologist

1. Pay Attention to the small details - your patients will.
2. The Patient experience starts with the very first contact with your office - staff telephone training is key and choose a great online scheduling vendor.
3. Schedule monthly business reviews with your office manager and follow key metrics that evaluate your performance.
4. A successful cosmetic practice listens and responds to what patients want, not what you think they need.
5. Develop healthy relationships with vendors; their success should be aligned with your success.

For more tips like this, stay tune to the SSS Newsletter, and plan to attend the 2023 Summit in Austin!
